Since its foundation in 1998, Unison Capital has pioneered mid-cap private equity investment in Japan. Unison Capital has become a household name in private equity with its track record of 27 investments. In 2014, Unison began an operation in Korea with its first fund and since made 5 investments to apply its know-how in control buyout investments.

The selection of these new Partners in our Seoul office reflects our increasing commitment to the Korean private equity market and our lasting pursuit of value creation. All Partners, both in Japan and Korea, will work hand-in-hand to provide unique Unison value to our portfolio companies.

Unison Capital looks to lead the way in our respective markets with our new 10-member partnership.
